Landlord agreement

Landlords can now have uninterrupted electric service to their property when a tenant requests service to be discontinued.

By signing the new Landlord Reversion Agreement, electric service will be transferred to the landlord's name by the cooperative when a tenant discontinues service. During the interim period between occupancy, bills will be sent to the landlord's mailing address.

Contact the cooperative at 800-426-3072 for more information regarding the Landlord Reversion Agreement.
